Filtration Performance Tailored to Your Driving Needs		Reusable & Maintenance-Friendly	
Cotton	A high-airflow cotton type designed for street use. It balances reduced intake resistance with high-level dust collection capability.	Cotton	Clean every 3,000 km by blowing air from the inside. Detergent washing is limited to one time only; never scrub with a brush.
Stainless	A SUS type designed exclusively for on-road use. This ultra-high intake model prioritizes maximum intake efficiency. Please avoid off-road use.	Stainless	Clean every 1,000 km by blowing air from the inside. Do not use neutral detergents.
